PHOTOFLEX Portable Photometers
Portable photometers for measuring a wide variety of samples in the field.

**Description**

The pHotoFlex portable photometers offer decisive advantages for water, wastewater and environmental monitoring. They have a bright, easy to read backlit display with auto-off that displays user-friendly on screen guidance for easy operation. The pHotoFlex offers a large selection of test sets to meet most requirements. The photometers can have their software and methods updated via the Internet. Integrated pH measurement with automatic temperature compensation makes the pHotoFlex much more versatile than standard photometers. They can store 100 user-defined routine measurements. The pHotoFlex meters use 4 AA batteries to make approximately 3000 measurements.

The pHotoFlex portable photometers are capable of performing a variety tasks in water, wastewater, and environmental monitoring. The photometers feature a highly robust optical system, which is optimally suited for mobile applications under changing conditions. Their LEDs plus filters for 6 wavelengths have remarkably low power consumption and deliver accurate measuring results. The intuitive menu guidance of the pHotoFlex allows for smooth operation, even without studying the manual. Dilution functions and timer, ease work in special cases.
